

PRSE-2021 School Review School Community Feedback Summary

PASCOE VALE SOUTH
PRIMARY SCHOOL

To ascertain how our families felt about our school, a survey was administered to all families in 2020 via Compass including three questions.

Question 1: What do you like about Pascoe Vale South PS?

Question 2: What can we improve at PVSPS

Question 3: How can we improve PVSPS?

Summary

Overall families clearly indicated they were happy with the school, with some improvements to be made. They felt their child was catered for and that learning was important at PVSPS. Families felt communication was crucial in knowing what their children were learning and wanted the school to continue this. Fundraising was key at PVS and because of the effort parents/carers dedicated to this, the improvement to the grounds and play spaces have been made possible and looks amazing.

Conclusion

Bringing families together is important at PVS. Organising additional family events means that families can keep in touch with their child's learning. Introducing a language, ICT, music and other creative subjects has been put in place in 2021. Offering Parent/carers information sessions will be considered with the introduction of BYOD and use of ipads at school. An addition Education Sub Committee will be introduced in 2021 so that our families can be more involved and understanding the curriculum, reporting and strategies.

Where to next?

Summary was shared with the school community via the Principals' Post, Staff Briefings, COMPASS and at School Council.

<p>What has worked well over the last 4 year at PVSPS?</p>	<p>Staff stability Communication with families Assembly- love that the kids run it.
